Solution provides for: trade paints and building materials, color development laboratories and distributing paints.

VERSATILITY AND EFFICIENCY

The **Gyro Mixer MJ 51** mix the products in different packages:

- Tin / bucket of 18 liters;
- Gallon 3,6-liter;
- Fourth 0,9 and 1 liter.

SAFETY

- Locking mechanism of the plates which ensures the secure attachment of the package;
- Electronic safety device on port: automatically opening;
- Key punch: use in case of need for emergency shutdown.

OTHER BENEFITS

- Excellent cost / benefit;
- Equipment with modern design;
- Very low maintenance rate;
- Simple operation and maintenance.

VERSIONS OF MANUFACTURE

- Gyroscope of 03 preset speeds.

TECHNICAL

- 220 volt AC motor;
- Two phase power 220 volts;
- 03 preset speeds;
- Electronic control of acceleration and deceleration of the equipment: avoid fatigue;
- Timer 1 to 9 minutes;
- Speed control for easy programming;
- Lock rotor for easy handling to take place and the packaging;
- Bearings, bushings and other parts of first quality;
- Traction Weight: 45 kg;
- Equipment weight: 145 kg;
- Measurements: Depth 720 mm, Width 890 mm;
- Height 1020 mm;
- Customized version for large industries.
